

CONVERGENCE THROUGH DRAWING AND PAINTING WITH MS. CATHERINE

Ms. Catherine's workshops

"Through art, words are not always needed. My workshops are dedicated to individual expression in its purest form, with trust as a keyword. Through lines, colors and movement, we'll find a space for freedom, we'll explore the emotions brought upon us by the experience of expatriation. Whatever happens in the workshop stays in the workshop, and it's each participant's individual choice to decide whether they will, later, decide to share the results of their explorations with the world."

Ms. Catherine's background

A former engineer in the nuclear industry in France, Ms. Catherine has now become a full-time painter. She graduated in fine arts in Paris and, more recently, followed a course in art-therapy with trainers from the USA, Europe and Australia at WCC College, Chennai. Her paintings have been the subject of a dozen exhibitions.

You can visit her website (in French and English) for more information: catherinelenoir.com
